

A group of young people, likely students, are shown in a room with vibrant, colorful graffiti on the walls. They are wearing headphones and are focused on operating DJ equipment, including turntables and mixers. The scene suggests a hands-on learning experience in digital media or music production.

DIGITAL MEDIA EDUCATION

Giga Training is a hub of creative industry professionals based in Belfast. We have been delivering multimedia, music technology and film training to the youth and education sectors for over 10 years.

“Over the last year we have worked with 1400 young people, over 200 gaining Accreditation.”

We aim to provide the highest quality training experience, delivered by our team of qualified professionals. Each member of our team is active in their relevant professional field, enabling the students and participants taking part in our programmes to gain unique insight and skills, using industry standard equipment.

Our track record of delivering community projects speaks for itself, with 1400 young people taking part in Giga programmes in the last year, over 200 gaining Accreditation at Level 1 or above.

At Giga Training we pride ourselves in supplying an educational experience that is second to none, giving participants from across NI the opportunity to gain high level skills, experience and qualifications, inspiring them to pursue new avenues in life whether it's further educational routes or new and exciting employment opportunities.

COMMUNITY PROJECTS

GIGA PROJECTS

We offer a range of tailored youth programmes and workshops in everything from DJing and filmmaking to web design and music technology. All our programmes can run as stand alone projects and workshops, or as part of an OCN accredited programme.

ACCREDITATION

Giga programmes can be completed at Level 1, 2 or 3 and are a flexible route to gaining a nationally recognised qualification (QCF). Qualifications require participants to complete a set number of credits to achieve an Award, Certificate or Diploma, which can be packaged from a range of IT and multimedia based topics within the qualification.

FUNDING

We can provide advice and assistance to voluntary and statutory organisations in sourcing and securing funding to run a project. Over the last number of years we have been successful in securing over £100,000 for community organisations to purchase resources, gain skills and qualifications.

"I've really enjoyed the programme, so far it's one of the best things I've done in my life."

**Glen Weafer
Springboard**

COMMUNITY PROJECTS

ARE A BIG PART OF OUR DELIVERY AT GIGA TRAINING

Springboard

As part of Springboard's 'Wider Horizons Programme', 10 young unemployed people were given the opportunity to try out the exciting world of filmmaking with Giga Training staff providing the expert tuition and guidance throughout.

Over the six week programme the group took on a wide range of film making roles from storyboarding and script writing to directing and editing.

The young people had little or no experience in film making prior to taking part in the programme and had the opportunity to work with Giga Training's team of professional

film makers, using broadcast quality equipment while achieving an OCN Level 2 qualification in film making.

The programme culminated in a gala screening at Belfast's prestigious Queens Film Theatre just before the participants headed off to start 7 week placements in the film industry in Canada.

GOOD RELATIONS

PROGRAMME AREAS

Our programmes can be based around a number of multimedia skill sets such as Filmmaking, Music, Photography, Animation and much more, all focussed on exploring the issues facing the development of positive relations in the community.

RECENT PROGRAMMES

Recent programmes have included a 6-week Digital Music programme in Newtownards which brought together groups of young people, from different religions and cultural backgrounds, to explore community relations and cultural diversity through music and music technology.

"I've never been involved in a project like this before, it was absolutely brilliant and I'd love to do it again."

COLLABORATION

We recognise that each organisation and group of learners will have different needs, aims and requirements. We take a flexible and collaborative approach to programme development, working in partnership with our clients. Give us a call to discuss how we can intergrate creative media into your programmes.

**Annie Fegan
Warrenpoint AYP
Good Relations
Film Project**

IN LINE WITH NI GOVERNMENT STRATEGY, ONE OF GIGA'S MAIN FOCUS POINTS HAS BEEN THAT OF GOOD RELATIONS. WE ARE PROUD TO HAVE BEEN INVOLVED IN MANY PROJECTS THAT HAVE HELPED TO CEMENT COMMUNITY RELATIONS THROUGHOUT NI, AIMING TO TACKLE RACISM, SECTARIANISM AND INTERGENERATIONAL ISSUES.

Southern Partnership

Giga Training was contracted by Investing in Our Future & the Southern Partnership for a large scale Peace III funded Good Relations Project.

The programme was delivered across the Southern Partnership Area - Newry and Mourne, Armagh, Banbridge and Craigavon council areas, and included delivery of eight Good Relations focused film making projects.

The overall aim of the project was to explore what sectarianism and racism means through cultural sharing, exploration and understanding, using the medium of film.

Our programmes can:

- ✓ Dispel Myths & Stereotypes
- ✓ Breakdown Prejudices
- ✓ Promote & Encourage Meaningful Dialogue
- ✓ Develop Long-lasting Relationships
- ✓ Increase Community Capacity

80 people, of varying ages took part in the programme and produced a diverse range of films addressing cultural issues through fictional, documentaries and spoken work / visual films.

[Click here](#) to view a sample of the content created as part of the project

Future Foundations

Giga Training delivered a digital art project as part of the Tanglewood Music and Arts festival. This future Foundations Peace III funded programme took place over the summer period in the lead up to one of the North's leading Music and Arts Festivals.

Ten young people took part in the graphic design project, two 6 x 3 metre scrim were printed and displayed on the main stage of the Tanglewood Music Festival.

The final pieces of artwork encapsulated both the ethos of the Tanglewood Festival and Peace III using the themes of music and a multi cultural society.

NEETS

NEETS PROJECTS

Our team deliver a wide range of NEETs focused projects within Creative Media, including Film Production, Music Production, Post Production Audio, Web, App Development and Graphic Design. We can facilitate programmes on Mac, PC, Android and iPad platforms and all our programmes have proven routes to further education and employment.

ACCREDITATION

All our programmes can be complimented by an OCN Accredited Qualification in the relevant subject field. Over the last number of years we have worked on OCN accredited programmes with over 1000 young people catergorized as NEETS

COLLABORATION

We recognise that each organisation and group of learners will have different needs, aims and requirements. We take flexible and collaborative approach to programme development working in partnership with our clients. Give us a call to discuss how we can intergrate creative media into your programmes.

"The tutors made it all very simple for us to understand. Don't think twice about taking part, its really worth it and a lot of fun."

Prince's Trust**

GIGA TRAINING

ARE FOCUSED ON SUPPORTING
GROUPS WORKING WITH
YOUNG PEOPLE
NOT IN EDUCATION
EMPLOYMENT
OR TRAINING

Prince's Trust

As part of their groundbreaking "Get Started" Programme, The Prince's Trust teamed up with Giga Training to deliver a DJ Skills programme in Belfast for young people not in education, employment or training.

The course gave participants an unique insight into one of the most sought after careers in the music business today, with hands on experience and training using state of the art equipment endorsed by superstar DJ's around the globe.

During the 5 day long programme those who are taking part gained a range of new skills as well as an OCN accredited qualification. You can view a behind the scenes documentary by [clicking here](#).

Megabytes

Giga Training delivered a two week entrepreneurial programme on behalf of East Belfast Enterprise.

The project covered the practical skills required to setup an online digital business

During the programme participants gained both entrepreneurial and technology based skills.

They setup and branded their business, designed a ecommerce site, ebay shop and social media pages as well as pricing, describing and photographing the range of products sold on the site.

[Click here](#) to view the site produced by the group.

Ashton Centre

Over the last year Giga Training has facilitated dance music production courses for the Ashton Centre NEETS programme.

During the OCN accredited programme those taking part used industry standard Ableton Live software to increase their vocational skills at Level 1 & 2. They produced music in a range of musical genres including dubstep, trance, hardstyle and drum and bass.

[Click here](#) to check out a sample of the participant's music.

MUSIC TECHNOLOGY

PROGRAMMES

For all qualifications, a range of units can be hand picked, in conjunction with the school, to ensure that current student interests and abilities are addressed, making the most engaging, challenging and exciting course possible. Students will get the chance to record using state of the art studio equipment, create their own digital tracks, run live gigs and get an insight into the music business.

VOCATIONAL SKILLS

The music industry in Northern Ireland has never been healthier, with it's musicians, songwriters, producers and DJs being recognised on a global platform. Participants will develop a vocational portfolio of work, learning real industry skills used by professionals in the business.

EDUCATIONAL ROUTES

All programmes provide a recognised path towards Higher Education, University and employment, giving students a GCSE or GCE equivalent qualification.

"Giga training have provided music technology training in CBS for 5 years. We have had 100% achievement with over 50% of pupils gaining distinction grades. Their delivery is highly professional and has provided me with the opportunity to develop and enhance my own skills."

Colin Quinn
H.O.D Music, C.B.S

WE OFFER A RANGE OF ACCREDITED AND BESPOKE PROGRAMMES FOR SCHOOLS AT PRIMARY AND POST PRIMARY LEVELS

OUR TEAM IS FULLY MOBILE AND CAN SUPPLY THE FULL EQUIPMENT SET-UP NEEDED FOR ANY PROGRAMME OR INTEGRATE WITH EXISTING RESOURCES IN THE SCHOOL

BTEC Level 2 & 3

Level

Equivalent: **GCSE/A-Level**

Timeframe: **2 Years**

Each BTEC qualification is made up of mandatory units plus a number of optional subject specific units that can be selected in conjunction with the school, based on student interests. Specialist units include Audio Production, Creative Writing, Video Production, Website Production, Graphic Design and Lighting. All BTEC qualifications feature a combination of internally assessed coursework and one examinable unit.

CCEA Occ Studies

Level

Equivalent: **GCSE**

Timeframe: **1 or 2 Years**

The Occupational Studies programmes consist of two units chosen, in consultation with the school, from a vocational area, making up a full Level 2 qualification. All Occupational Studies programmes require no previous knowledge of the subject and are perfect for participants who find the traditional GCSE routes challenging. Subjects can include Digital Imaging, Digital Music, Sound Production and TV and Film Production.

CCEA Performance Skills

Level

Equivalent: **GCSE**

Timeframe: **1 Years**

Comprising of three mandatory units, one looking at the different aspects of working in the creative industries, a second that develops a range of techniques for performance and a final unit that looks at effective rehearsal aiming towards a final performance. Performance can be instrument based or focussed on DJing and music technology. All work is internally assessed with a filmed final performance.

MULTIMEDIA

PROGRAMMES

For all qualifications, a range of units can be hand picked in conjunction with the school to ensure that current student interests and abilities are addressed, making the most engaging, challenging and exciting course possible. Topics can include Website Design, Photography, Graphic Design, Blogging, Film Making and Animation.

VOCATIONAL SKILLS

The creative industries in Northern Ireland have never been more prosperous, with it's film makers, designers and digital artists being recognised as some of the best in the world. Participants will develop a portfolio of work to help them forge a career in one of the most exciting & fast moving industries around.

EDUCATION ROUTES

All programmes provide a recognised path towards Higher Education, University and employment, giving students a GCSE or GCE equivalent qualification.

"Giga Training are currently delivering BTEC Creative Media and Occupational Studies to our Year 11 students. Brilliant rapport with pupils and staff. Very flexible and willing to accommodate the school's objectives."

BTEC Level 2 & 3

Level

Equivalent: **GCSE/A-Level**

Timeframe: **2 Years**

Each BTEC qualification is made up of mandatory units plus a number of optional subject specific units that can be selected in conjunction with the school, based on student interests. Specialist units include Audio Production, Creative Writing, Video Production, Website Production, Graphic Design and Lighting.

CCEA Occ Studies

Level

Equivalent: **GCSE**

Timeframe: **1 or 2 Years**

The Level 2 Occupational Studies programmes consist of two units chosen, in consultation with the school, from a vocational area, making up a full Level 2 qualification. For each unit a portfolio of work will be created by each student, tracking their development. All Occupational Studies programmes require no previous knowledge of the subject and are perfect for participants who find the traditional GCSE routes challenging.

OCR iMedia

Level

Equivalent: **GCSE**

Timeframe: **2 Years**

This media focused qualification takes a flexible approach, with centres able to tailor units including games design, web, video, photography, sound and multimedia.

The OCR iMedia Certificate contains 2 mandatory and 2 optional units.

The iMedia Certificate offers pathways and progression to higher education via the UCAS recognised Level 3 iMedia qualifications.

MOVING IMAGES

WORKSHOPS & PROGRAMMES

Giga Training offer delivery of AS, A2 and GCSE Moving Image Arts, as well as a range of specialist bespoke workshops. Additionally, we also deliver extra curricular Moving Image focused programmes throughout the year.

EQUIPMENT

Participants will have the opportunity to get hands on experience using industry standard equipment. Giga have a wealth of resources including HD cameras, lighting, green screen, jibs, sliders and sound recording equipment.

INDUSTRY EXPERIENCE

They will also gain skills in some of the industry standard pieces of software used by the filmmaking community such as Final Cut, Motion, DVD studio pro and Flash. We aim to increase student's knowledge of Film Language, Script Writing and Storytelling in an advancing digital age, offering a creative environment where students are free to express themselves and experiment with the medium of moving image.

"Giga Training has been able to bring industry experience to the young people in our Moving Image Arts department. The students confidence has grown and they have developed a wide range of film making skills as a result."

Strand Filmmakers

Giga Training teamed up with Northern Ireland's iconic picture house, The Strand Arts Centre, to offer 24 young people from Belfast the opportunity to get a taste of what its like to work in the film industry, which is an increasingly viable career option in Northern Ireland.

The aim of the project was to address specific areas of the Moving Image GCSE and A level syllabus analysing the signature directorial styles of Baz Luhrmann and Alfred Hitchcock. The Strand Film Maker's Club was split into two one-week summer courses for secondary school students designed to give an insight into the film industry.

The students worked with Giga's team of industry professionals to research, shoot, act, produce, direct and edit their own short films, which were screened as part of a gala premiere event in The Strand Cinema. The initiative was co-funded by Arts & Business and Hughes Insurance in partnership with the Strand Arts Centre and Giga Training.

Four films were produced by the young people as part of the project, which can be viewed [online here](#).

IPAD TRAINING

IPAD PROGRAMMES

With digital literacy on the increase we believe that the use of iPads should be at the forefront of our programmes where possible. We can integrate iPads into any programme due to their ease of use, portability and the broad range of apps suited to all levels of ability.

EQUIPMENT & SKILLS

Giga Training have a range of compatible accessories to compliment our suite of iPads such as microphones, soundcars and tripods turning any ipad into a high end device for film making, multimedia, music making and digital photography.

EDUCATION ROUTES

We can create bespoke one off workshops and longer programmes in music making, photography, animation, film making and much more, tailoring everything to suit the needs of the group whether it's simply recreational or to integrate curriculum needs.

Mitchell House School

Mitchell House is a Belfast based special school for the children with physical disabilities. Giga Training worked with the school to develop and deliver a pioneering Occupational Studies Creative Media programme with their senior year.

This unique paperless qualification was delivered, completed and assessed using iPads including Garageband, Photoshop and Moodle Apps, with all participants creating digital music compositions and digital image montages.

All of the students that took part in the programme achieved a Level 2 qualification at Pass level or above, completing two units, Digital Music and Digital Imaging.

Content created by young people at a recent iPad Animation workshop can be viewed [online](#).

Continual Professional Development

Training Programmes

Giga Training offer a range of Continued Professional Development training programmes for teachers and education staff. In consultation with each school or centre we can draw up a training programme for staff based on curriculum and individual requirements.

Software Options

We can supply training in a range of software packages from the full Office Suite to creative applications for film making, music technology, animation, web design, coding, desktop publishing and much more.

Multi Platform

Our professional tutors can deliver training sessions on PC, Mac, iPad and Android platforms. We can also advise on which software packages are best to use for integration into your ongoing curriculum delivery.

Using ICT Requirements

We are also available to help with the implementation of CCEA's Using ICT requirements. We can create a bespoke training plan to help teachers from any subject area integrate the ICT requirements into their current scheme of work. We can also assist with task development, delivery and evaluation.

WE HAVE WORKED WITH CLIENTS FROM ACROSS THE COMMUNITY AND EDUCATION SECTORS, HERE'S WHAT THEY THINK.

Client Feedback

Thomas Turley - Ardoyne Youth Club

Having access to Giga Training's professional tutors and equipment is great for the young people - getting to work alongside those who do this for a living...

It helps inspire them and focus their mind.

Bowden Morris - Springboard Opportunities

I recently took part in the Giga training media programme via SpringBoard, the training, qualifications and experience I gained as well as the support has been excellent and I am now studying Art, Media and Design at London Met. Uni."

Eva - Princes Trust Get Started

Getting a DJing qualification is one of the achievements I have always wanted to reach so its been a great opportunity for myself

Emma O Carroll - Investing in Our Future

Working with Giga Training has been a great experience over the past few years. They are very friendly and professional and have a great rapport with old and young alike, they have a great understanding of what is required of them and always deliver a quality programme on time and on budget. I would have absolutely no hesitation in recommending them for work in the future and hope I get the chance to work with them again.

Jen Ashton - Springboard

At Springboard we are committed to providing the best training focused on professional development, personal development all within the culture of mutual understanding for young disadvantaged people. We partnered with Giga Training as we knew that they would deliver the best results with the young people. The young people not only achieved hands on experience, with the support of professional film makers, but have grown in confidence.

Phillip Crawford - Lyric Theatre

"The Creative Learning department has worked with Giga Training on a number of projects – from radio plays with adults to sound design workshops for students. Their wealth of knowledge and expertise has added an exciting new dimension to our work in engaging people in making theatre.

STRANDTOWN STUDIOS
